- The 90-Day Plan
- Google & Local Search
- Brand Voice, Content & Social
- Systems, Automation & Data
- Video Production
- Assets Crown & Core Keeps
- What Happens Each Month
- What We Need From You
- What We Will Not Do
- What Success Looks Like
- MAXX Circle™
- Investment
- Our Delivery Guarantee
- Ownership
- Moving Forward
- Agreement Parties

The 90-Day Plan

ONE SYSTEM

What we build

We will build and run one system across Google, content, video, automation, client data, and reporting.

When

Days 1–30: Fix and build. Days 31–60: Run and improve. Days 61–90: Measure, document, and hand over.

Google & Local Search

How do we find you?

What we build

- Google Business Profile — completion and cleanup
- Booking verification — and conversion-path checks
- Local visibility tracking — with baseline and repeat map scans
- Listing consistency — across key directories
- Website search fixes — plus Search Console and indexing checks
- Google posts — and review-response drafts
- 90-day visibility comparison — to show what changed

Campaign Search Focus

Google content will support the active T-Shape 2, Lumenis, GLP, and Meta offers. Your full service menu will remain accurate and available.

We will also use existing Tangles & Locs client data to help identify which services may be relevant to current clients, based on real customer activity and observed behavior patterns within this niche.

Brand Voice, Content & Social

What is the Voice of Crown & Core?

Monthly

One content plan, three Instagram/Facebook posts per week (2 posts + 1 video), one custom educational guide built around T-Shape 2, GLPs/peptides, and Lumenis services, plus four to five Google posts, after approvals from you for health-related content.

First 90 Days

Crown & Core Brand Voice Guide, 90 days' worth of scripted talking points, Google profile copy, website copy, review-response drafts, T-Shape 2 education content, membership proposal, Elevate Day announcements, and a next-quarter content plan.

Campaign Funnel

Who

Problem

Offer

Value

Proof

CTA

We make one offer per campaign.

Systems, Automation & Data

We will put systems in place

Month 1

Comment-to-DM automation, post scheduling, GA4/Tag Manager, consent controls, and any automation needed to support future podcast and video output.

Month 2

Square data pipeline, client-segment finder, voice-of-customer file, and weekly performance snapshot.

Month 3

Final one-page report, system documentation, ownership handoff, and second-quarter automation plan if you desire to continue.

Video Production

Build a Content Library

Shoot 1

Google photos/videos, team introductions, NP videos, T-Shape 2 footage, product photography, footage library.

Shoot 2

Service videos, approved client voices, direct-response clips, additional footage library.

Shoot 3

Event video, event clips, Crown & Core Podcast clips, and the final footage library.

Hero Offer Proof

Provider explanation, treatment process, common questions, approved client experience, compliant before/after material where permitted, and short CTA clips.

Assets Crown & Core Keeps

What we build is yours.

Raw Footage Library

Organized copies of usable footage from all three shoots.

Brand Voice Guide

Reference for tone, language, approved wording, and words to avoid.

Client Brain + System Handoff

Approved strategy, decisions, operating information, workflows, account ownership, and handoff material.

What Happens Each Month

**BUILD → TEST →
MEASURE → DELIVER**

Build the Foundation

- Local-search baseline
- Google profile work
- Website fixes
- Tracking and consent
- First video shoot
- Brand Voice Guide
- First content cycle
- Automation setup

Run the System

- Second video shoot
- Regular publishing
- Hero Offer campaign
- Google content
- Square analysis
- Client segmentation
- Automation
- Membership analysis

Measure and Hand Over

- Third video shoot
- Continued publishing
- Final map scans
- Search Console review
- 90-day comparison
- Final report
- System handoff
- Next-quarter plan

What We Need From You

Five things needed to continue.

Account Access

Access to the accounts required for the agreed work.

Accurate Business Information

Current services, pricing, product details, event-space pricing, provider information, and anything that is off-limits or sensitive. We have already discussed most of this, and we will only need what we can't find on Square or online. We will proactively handle the rest and won't bother you for information we can find ourselves.

Approvals

Timely approval of content, health wording, review replies, and campaign plans.

Why?

We do not publish sensitive or health-related material without required approval.

Filming Participation

Confirmed dates, team members, participating clients, services, and releases.

Data Permission

Required agreements before client-level Square data is accessed.

Why?

Client information must be handled with clear permission and boundaries. We will also comply with applicable Washington laws governing client and health-related information. Please share this contract with your attorney if you have any questions about data safety and permissions.

What We Will Not Do

How we protect Crown & Core

No Unapproved Advertising

Why?

You control advertising spend and campaign approval.

No Unsupported Health Claims

Why?

Health information must remain accurate, approved, and within allowed claims.

No Client Data Without Permission

Why?

Marketing work does not require unrestricted access to clinical information.

No Fake Numbers or Rankings

Why?

Every reported number should trace to a source. If we cannot verify it, we do not present it as fact.

No Unapproved Client Content

Why?

Client stories, images, video, and before/after material require proper permission before use.

What Success Looks Like

Measure what actually changed.

Local Visibility

Compare Google and map visibility from Day 0 to Day 90.

Booking Activity

Confirm the path from Google to booking works and monitor activity we can reliably attribute.

Client Reactivation

Identify clients who have not returned and clients who use only one service line.

Reviews and Client Language

Track reviews and collect recurring client questions and phrases.

Ownership

Finish with documented systems, content assets, data structures, and a next-quarter plan.

MAXX Circle™

Give more where it can matter most.

MAXX Circle™ is a founder-led philosophy at MACS Digital Media. For selected clients, Stacy personally approves additional work when we believe something beyond the original agreement can genuinely help the business keep moving forward.

The idea is simple

- We give something useful.
- It helps the client move forward.
- That progress creates room for them to give more to others.
- The value keeps moving.

Approved for Crown & Core: The following MAXX Circle™ contributions are included by choice for this engagement. They are not standard deliverables for every MACS client.

What you receive from MAXX Circle

1. Private Crown & Core business agent
2. Founder documentary
3. Crown & Core podcast
4. One month free services for Tangles & Locs - social media and full audit.

We can agree on what's important to get done for you that month.

Founder Media Kit and Crown & Core Content Vault are included free in the package and under the guarantee.

Private Crown & Core Business Agent

Lethia receives a private AI business agent built specifically around Crown & Core and Tangles & Locs. It will be trained on the business information, documents, systems, offers, and private data she authorizes so she can ask questions and get clear answers in normal, non-technical language.

Guidance: During our regular meetings, we will spend a few minutes showing practical ways to use the agent based on what is happening in the business at that time.

Founder Documentary

Within 30 days after the 90-day engagement ends, MACS will produce a short founder documentary centered on Lethia, Crown & Core, Tangles & Locs, and the story behind both businesses. She can use it however she chooses.

Crown & Core Podcast

We will take the interviews, clips, relationships, and conversations created during the engagement and turn them into the foundation for an official Crown & Core podcast, including the show direction, visual identity, reusable format, and first assembled episodes from existing footage.

Founder Media Kit

We will organize Lethia's founder story into a practical media package with approved short and long bios, interview talking points, selected photos and clips, and a ready- to-share folder for press, partnerships, presentations, and future opportunities.

Crown & Core Content Vault

We will organize the finished videos, approved social clips, usable raw footage, photography, transcripts, copy, podcast assets, and brand documents into a usable content library so Crown & Core can continue using the work after the engagement.

Investment

Your Investment in Crown & Core

\$17,500

Payment Structure

50% at signing — \$8,750 in professional services, plus applicable tax.

25% on Day 30 — \$4,375 in professional services, plus applicable tax.

25% final installment — \$4,375 in professional services, plus applicable tax.

The final 25% installment, plus applicable tax, is due only after MACS has completed and handed over all deliverables promised in this agreement, including the MAXX Circle™ contributions, and the Delivery Guarantee applies to this installment.

The 90-day engagement begins after this agreement is signed and the initial payment is received. The final installment above is the final installment referenced in the Delivery Guarantee.

* WA Retail Sales Tax - Bellevue: 10.3%. Total WA sales tax shown: \$1,802.50. Total including tax: \$19,302.50. Washington expanded retail sales tax to certain services effective October 1, 2025, including advertising and custom website development services under ESSB 5814 (Laws of 2025, Ch. 422), including RCW 82.04.050 and RCW 82.08.020. Bellevue location code 1704 is listed by the Washington Department of Revenue at a 10.3% combined rate (6.5% state + 3.8% local) for Q4 2026. The applicable rate and tax treatment will be confirmed again for each invoice date.

Our Delivery Guarantee

We stand behind our work.

If the written 90-day deliverables are not completed, MACS refunds the final installment, including sales tax collected on that installment, and keeps working for up to 30 additional days at no professional-service charge.

What the Guarantee Covers

Work MACS controls. Delays caused by missing access, unsigned required agreements, unavailable participants, or approvals outside the agreed review period move the affected delivery date.

Review Period

We ask that you take the time to review this agreement with your team, attorney, or other advisors before making a decision.

There is no expectation to sign immediately.

To give you time to review everything properly, MACS offers remain open for seven days from the date they are presented.

- review the scope and deliverables
- confirm the pricing and payment schedule
- ask any questions
- have legal or financial advisors review the agreement if you choose
- make sure the engagement feels right for your business

Our goal is a clear decision, not a rushed commitment.

Ownership

The end state is operational ownership and digital sovereignty for Crown & Core — not permanent dependency.

What Crown & Core keeps

Approved content, produced media, campaign assets, reporting, documented workflows, business-specific knowledge created during the engagement, and account ownership where the accounts belong to Crown & Core.

Moving Forward

If you're not against getting started, here's how we can move forward:

- Review the agreement with your team or advisors.
- Let us know if anything needs clarification.
- Confirm the scope and payment schedule.
- Sign when you're comfortable.
- We begin the 90-day engagement.

Revision note

This proposal has been refreshed for easier reading, with updated typography and a few minor edits. The payment schedule is the one substantive addition: 50% up front, 25% on Day 30, and 25% on completion, after all promised deliverables are finished and handed over. The price and the Delivery Guarantee remain the same. These updates are included before signing; the original copy has been kept for reference.
