THE AGREEMENT

Ownership	28
Moving Forward	30
Agreement Parties	32

The 90-Day Plan

ONE SYSTEM

Right now, getting found on Google, getting booked, and seeing what's working all live in different places. For 90 days we put them in one system you own, including your T-Shape 2 marketing.

WHAT WE BUILD

We will build and run one system across Google, content, video, automation, client data, and reporting.

WHEN

Days 1–30: Fix and build. Days 31–60: Run and improve. Days 61–90: Measure, document, and hand over.

By the end of week one: your Google profile cleanup is under way, and you'll have your Day 0 map scan, a before picture to compare against on Day 90.

Google & Local Search

How do we find you?

WHAT WE BUILD

- Google Business Profile — completion and cleanup
- Booking verification — and checks that visitors can book
- Local visibility tracking — with baseline and repeat map scans
- Listing consistency — across key directories
- Website search fixes — plus Search Console checks that Google can find your pages
- Google posts — and review-response drafts
- 90-day visibility comparison — to show what changed

Campaign Search Focus

Google content will support the active T-Shape 2, Lumenis, GLP, and Meta offers. Your full service menu will remain accurate and available.

We will also use existing Tangles & Locs client data to see which services fit current clients, based on real customer activity.

Brand Voice, Content & Social

What is the Voice of Crown & Core?

Monthly

One content plan, three Instagram/Facebook posts per week (2 posts + 1 video), one custom educational guide built around T-Shape 2, GLPs/peptides, and Lumenis services, plus four to five Google posts, after approvals from you for health-related content.

First 90 Days

Crown & Core Brand Voice Guide, 90 days' worth of scripted talking points, Google profile copy, website copy, review-response drafts, T-Shape 2 education content, membership proposal, Elevate Day announcements, and a next-quarter content plan.

Campaign Funnel

- 01 Who
- 02 Problem
- 03 Offer
- 04 Value
- 05 Proof
- 06 Next step

We make one offer per campaign.

Systems, Automation & Data

We will put systems in place

Month 1

Auto-replies to comments, post scheduling, GA4/Tag Manager, consent controls, and any automation needed to support future podcast and video output.

Month 2

Square data pipeline, client-segment finder, voice-of-customer file, and weekly performance snapshot.

Month 3

Final one-page report, system documentation, ownership handoff, and second-quarter automation plan if you want to continue.

Video Production

Build a Content Library

Shoot 1

Google photos/videos, team introductions, T-Shape 2 footage, product photography, footage library.

Shoot 2

Service videos, approved client voices, direct-response clips, additional footage library.

Shoot 3

Event video, event clips, Crown & Core Podcast clips, and the final footage library.

Videos That Show the Offer

Provider explanation, treatment process, common questions, approved client experience, compliant before/after material where permitted, and short next-step clips.

Assets Crown & Core Keeps

What we build is yours.

Raw Footage Library

Organized copies of usable footage from all three shoots.

Brand Voice Guide

Reference for tone, language, approved wording, and words to avoid.

Client Brain + System Handoff

Think of it as your business's notebook. Everything we learn goes in it: what we decided, how things work, and the accounts you own. Your Business Agent reads it, so it can answer your questions.

What Happens Each Month

BUILD → TEST → MEASURE → DELIVER

Build the Foundation

- Local-search baseline
- Google profile work
- Website fixes
- Tracking and consent
- First video shoot
- Brand Voice Guide
- First content cycle
- Automation setup

Run the System

- Second video shoot
- Regular publishing
- Hero Offer campaign
- Google content
- Square analysis
- Client segmentation
- Automation
- Membership analysis

Measure and Hand Over

- Third video shoot
- Continued publishing
- Final map scans
- Search Console review
- 90-day comparison
- Final report
- System handoff
- Next-quarter plan

What We Need From You

Five things needed to continue.

Account Access

Access to the accounts required for the agreed work.

Accurate Business Information

Current services, pricing, product details, event-space pricing, provider information, and anything that is off-limits or sensitive. We have already covered most of this. We will only ask for what we can't find on Square or online.

Approvals

Timely approval of content, health wording, review replies, and campaign plans.

Filming Participation

Confirmed dates, team members, participating clients, services, and releases.

Data Permission

Required agreements before client-level Square data is accessed.

Our Promises to You

How we protect Crown & Core

Advertising Only With Your Approval

WHY? You control advertising spend and campaign approval.

Health Claims Only When Accurate and Approved

WHY? Health information must remain accurate, approved, and within allowed claims.

Client Information Only With Permission

WHY? Marketing work does not require unrestricted access to clinical information.

Only Verified Numbers and Rankings

WHY? Every reported number should trace to a source. If we cannot verify it, we do not present it as fact.

Client Content Only With Permission

WHY? Client stories, images, video, and before/after material require proper permission before use.

What Success Looks Like

Measure what actually changed.

Local Visibility

Compare Google and map visibility from Day 0 to Day 90.

Booking Activity

Confirm the path from Google to booking works and monitor activity we can reliably attribute.

Client Reactivation

Identify clients who have not returned and clients who use only one service line.

Reviews and Client Language

Track reviews and collect recurring client questions and phrases.

MAXX Circle™

Give more where it can matter most.

MAXX Circle™ is a founder-led philosophy at MACS Digital Media. For selected clients, Stacy personally approves additional work when we believe something beyond the original agreement can genuinely help the business keep moving forward.

The idea is simple

- We give something useful.
- It helps the client move forward.
- That progress creates room for them to give more to others.
- The value keeps moving.

Approved for Crown & Core: The following MAXX Circle™ contributions are included by choice for this engagement. They are not standard deliverables for every MACS client.

What you receive from MAXX Circle

1 Private Crown & Core Business Agent

2 Founder Documentary

3 Crown & Core Podcast

4 One month free for Tangles & Locs: a social media system, a full audit, and a video shoot.

Founder Media Kit and Crown & Core Content Vault are included free in the package and under the guarantee.

Private Crown & Core Business Agent

You receive a private AI business agent built specifically around Crown & Core and Tangles & Locs. It will be trained on the business information, documents, systems, offers, and private data you authorize so you can ask questions and get clear answers in plain language.

Guidance: During our regular meetings, we will spend a few minutes showing practical ways to use the agent based on what is happening in the business at that time.

Founder Documentary

Within 30 days after the 90-day engagement ends, MACS will produce a short founder documentary centered on you, Crown & Core, Tangles & Locs, and the story behind both businesses. You can use it however you choose.

Crown & Core Podcast

We will take the interviews, clips, relationships, and conversations created during the engagement and turn them into the foundation for an official Crown & Core podcast, including the show direction, visual identity, reusable format, and first assembled episodes from existing footage.

Founder Media Kit

We will organize your founder story into a practical media package with approved short and long bios, interview talking points, selected photos and clips, and a ready-to-share folder for press, partnerships, presentations, and future opportunities.

Crown & Core Content Vault

We will organize the finished videos, approved social clips, usable raw footage, photography, transcripts, copy, podcast assets, and brand documents into a usable content library so Crown & Core can continue using the work after the engagement.

Investment

Your Investment in Crown & Core

\$17,500

Total including tax: \$19,302.50

Payment Structure

50% at signing — \$8,750 in professional services, plus applicable tax.

25% on Day 30 — \$4,375 in professional services, plus applicable tax.

25% final installment — \$4,375 in professional services, plus applicable tax.

The final 25% installment, plus applicable tax, is due only after MACS has completed and handed over all deliverables promised in this agreement, including the MAXX Circle™ contributions, and the Delivery Guarantee applies to this installment.

The 90-day engagement begins after this agreement is signed and the initial payment is received. The final installment above is the final installment referenced in the Delivery Guarantee.

* WA Retail Sales Tax - Bellevue: 10.3%. Total WA sales tax shown: \$1,802.50. Total including tax: \$19,302.50. Washington expanded retail sales tax to certain services effective October 1, 2025, including advertising and custom website development services under ESSB 5814 (Laws of 2025, Ch. 422), including RCW 82.04.050 and RCW 82.08.020. Bellevue location code 1704 is listed by the Washington Department of Revenue at a 10.3% combined rate (6.5% state + 3.8% local) for Q4 2026. The applicable rate and tax treatment will be confirmed again for each invoice date.

Our Delivery Guarantee

We stand behind our work.

If the written 90-day deliverables are not completed, the final installment is not due, and MACS keeps working for up to 30 additional days at no professional-service charge.

What the Guarantee Covers

Work MACS controls. Delays caused by missing access, unsigned required agreements, unavailable participants, or approvals not given within 7 days of MACS sending them for review move the affected delivery date.

Ownership

The end state is full ownership and control of your systems for Crown & Core — not permanent dependency.

What Crown & Core keeps

Approved content, produced media, campaign assets, reporting, documented workflows, business-specific knowledge created during the engagement, and account ownership where the accounts belong to Crown & Core.

Review Period

We ask that you take the time to review this agreement with your team, attorney, or other advisors before making a decision.

There is no expectation to sign immediately.

To give you time to review everything properly, this offer was presented on October 2, 2026 and remains open for 7 days, through October 9, 2026.

Moving Forward

If you're not against getting started, here's how we can move forward:

- Let us know if anything needs clarification.
- Confirm the scope and payment schedule.
- Sign when you're comfortable.
- We begin the 90-day engagement.
